Management Discussion of Fund Performance

Investment Objective and Strategies

The Fund's objective is to provide investors with a high level of income and the opportunity for capital appreciation. The Fund will invest primarily in fixed income securities issued by U.S., Canadian and other international corporations. The Fund is available in a hedged and unhedged series. For investors seeking exposure to U.S. currency with exposure to fluctuations between the U.S. and Canadian dollars, an unhedged version is available. For investors seeking exposure to the assets of the funds denominated or exposed to the U.S. currency, but wishing to reduce exposure to fluctuations between the Canadian and U.S. dollars, a Canadian dollar hedged version is available.

Risk

The overall risks of investing in the Fund are as described in the Simplified Prospectus. There were no material changes to the Fund during the year that affected the overall level of risk.

Results of Operations

The Fund's net assets decreased by 8.4% in 2022 to \$17.5 million from \$19.1 million at the end of 2021. Of this change, \$1.0 million was attributable to negative investment performance and \$0.6 million to net outflows from unitholders.

For the year ended December 31, 2022, the High Yield Bond Fund (Unhedged) Series A decreased -0.8% before fees, and Series B and F decreased -1.7% and -1.5%, respectively, both after fees and expenses. The ICE BofAML BB-B High Yield Constrained Index (C\$) decreased -4.1% over the same period.

Currency exposure has been a detractor to performance this year, with the unhedged series outperforming the hedged series by 7.0%, as the Canadian depreciated relative to the US Dollar.

As of December 31, 2022, the High Yield Bond Fund (Hedged) Series A decreased -7.9% before fees, and Series B and F decreased -8.9% and -8.6%, respectively, both after fees and expenses. The ICE BofAML BB-B High Yield Constrained Index (Hedged to C\$) decreased -11.1% over the same period.

Returns were slightly positive during the third quarter of 2022, following deeply negative returns in the prior two quarters. Credit spreads in the high yield market tightened in July and gradually moved wider in August and September. The fund outperformed its benchmark during the third quarter, led by security selection in Basic Industry and Retail. In the broader high yield market, performance by sector was mixed, although slightly negative overall. Bank loans outperformed high yield bonds as rates continued to rise.

Returns were positive in the fourth quarter, as credit spreads in the high yield market tightened. The fund outperformed its benchmark due to security selection in Consumer Discretionary, Basic Industry, and Capital Goods. In the broader high yield market performance by sector was mixed, although positive overall.

The fund continues to be positioned with a bias towards owning fixed rate high yield bonds over bank loans. As at December 31, 2022, the composition of the fund was 85.4% high yield bonds, 9.4% senior secured loans, 0.3% investment grade bonds and 4.9% cash & other net assets.

Our outlook for high yield fixed income is relatively constructive at current yields. Fundamentals in the high yield bond market remain strong, with many near-term maturities having largely been refinanced at low rates during the pandemic, resulting in a more favorable outlook.

We believe that most of the pain from rising bond yields has already been transmitted to investors in the first half of 2022. With yields now substantially higher, we think that the overall return outlook from fixed income is relatively attractive.

Recent Developments

The ICE BofAML BB-B High Yield Constrained Index and the ICE BofAML BB-B High Yield Constrained Index (Hedged to C\$) rose +2.0% and +3.5% respectively, in January 2023.

Related Party Transactions

Leith Wheeler Investment Counsel Ltd. (the “Manager”) is the manager and portfolio advisor of the Fund and is responsible for the Fund’s day-to-day operations. The Fund pays the Manager a management fee as compensation for managing the investment portfolio of the Fund.

Management Fees

The Manager provides the Fund with investment management services, including fund accounting and unitholder record keeping. In return, the Manager receives a management fee based on the net assets of the Fund, calculated on a daily basis. The annualized management fee for the Series B/ Series B (CAD Hedged) and Series F/ Series (CAD Hedged) units of the Fund are 0.80% and 0.65%, respectively. During the year, the Fund paid the Manager \$1,151 and \$6,081 for Series B and Series B (CAD Hedged); and \$1,972 and \$28,326 for Series F and Series F (CAD Hedged) (exclusive of GST/HST) of its net assets as management fees. The Fund does not reimburse the Manager for operating costs incurred in administering the Fund. The Manager paid all operating expenses except brokerage commissions, transaction charges and taxes. In respect of Series A units, the unitholder pays the Manager a negotiated management fee outside the Fund.

We do not, directly or indirectly pay fees, sales commissions or trailing commissions, nor do we provide any non-monetary benefits to registered dealers for distributions of units of the Fund. If a broker charges you a commission or fee, that is a matter between you and the dealer.

- (1) This information is provided as at December 31 of the year shown; unless noted otherwise.
- (2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of the daily average net asset value during the period.
- (3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Past Performance

General

The Fund's performance assumes all distributions made by the Fund in the years shown were reinvested in units of the Fund and is based on net asset value per unit. If you hold the Fund outside a Registered Plan, you will be taxed on these distributions.

The performance information does not take into account sales charges, other charges or taxes that, if applicable, would have reduced returns or performance; but includes management fees and other expenses borne directly by the Fund. Past performance does not necessarily indicate how the Fund may perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund's historical return, which changes each year and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each year.

* Series A and Series A (CAD Hedged) units and Series B and Series B (CAD Hedged) units were created May 27, 2015. Return from May 27, 2015 to December 31, 2015, not annualized.

** Series F and Series F (CAD Hedged) units were created on September 10, 2015. Return from September 10, 2015 to December 31, 2015, not annualized.

Past Performance (cont.)**Annual Compound Returns**

The following table compares the historical annual compound return of the Fund (before fees for Series A and after fees for Series B and F) with the Bank of America Merrill Lynch BB-B U.S. High Yield Constrained Index (CAD) in each case for the year ended December 31, 2022. The Bank of America Merrill Lynch BB-B U.S. High Yield Constrained Index (CAD) measures the total return attributable to high yield corporate bonds, and includes representative bond issues by issuer, quality, and term. A discussion of the performance of the Fund as compared to this broad-based index is found in the Results of Operations section of this document.
