You can get a copy of the interim or annual financial statements at your request, and at no cost, by calling 1-888-292-1122, by writing to us at 1500 – 400 Burrard Street, Vancouver, BC V6C 3A6 or by visiting our website at www.leithwheeler.com or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

To provide superior long-term investment returns by investing primarily in a diversified portfolio of common shares and other equity related securities of Canadian issuers, while excluding companies with significant activity in the fossil fuel industries.

We utilize a value approach to stock selection, applying bottom-up, fundamental analysis to all investment decisions. Our investment goal is to protect our clients' capital while offering superior investment growth, regardless of economic conditions. We seek to invest in solid companies run by strong management teams that can navigate variable market conditions.

The Carbon Constrained Canadian Equity Fund (CCCE Fund) follows the same investment process as our core Canadian Equity Fund, where environmental, social and governance issues are addressed in our bottom-up stock analysis. The CCCE Fund adds an additional layer of analysis where companies with more than 30% of their revenues tied to fossil fuel-related activities are screened out of the portfolio. More specifically, investments are excluded if they derive more than 30% of their revenues from:

- The extraction and sale of fossil fuels, or from royalties earned from third parties performing such activities;
- Services (including transportation and refining) provided to companies involved in the extraction or sales of fossil fuels; or
- The sale of power produced by the consumption of fossil fuels.

Risk

The overall risks of investing in the Fund are as described in the Simplified Prospectus. There were no material changes to the Fund during the year that affected the overall level of risk.

Results of Operations

The Fund's net assets increased by 9.0% in the first half of 2023 to \$105.6 million from \$96.9 million at the end of 2022. Of this change, \$8.1 million was attributable to positive investment performance and \$0.6 net inflows from unitholders.

For the six months ending June 30, 2023, the Carbon Constrained Canadian Equity Fund (CCCE) Series A increased 8.4% before fees, and series F increased 7.8%, after fees and expenses. The S&P/TSX 60 Fossil Fuel Free Index (TSX FFF), increased 6.6% over the same period.

In the first quarter, the Fund outperformed the TSX FFF, helped by an overweight in Information Technology and no exposure to Energy, partially offset by stock selection in the Real Estate sector. The banking turmoil in the US and Europe dominated capital markets in the latter half of the quarter. Concerns of systemic risk in the financial system were raised following the failure of two US regional banks and subsequent near collapse of Credit Suisse. The Canadian banks in the Fund are, in our view, in good shape, with strong liquidity and a diversified deposit base. During the quarter, most banks in the Fund generated positive returns (CIBC +6.2%, Scotia Bank +4.2% and Royal Bank +2.5%).

The Fund rose over the second quarter and outperformed the TSX FFF. Relative performance was helped by strength in Materials and Industrial holdings, partially offset by holdings in Information Technology and Consumer Staples. As we reach the midpoint of 2023, financial markets are keeping an eye on significant economic developments. The overall macroeconomic situation indicates a resilient economy despite ongoing concerns of a recession. However, inflation remains persistent, presenting a challenge for central bankers.

Recent Developments

The S&P/TSX 60 Fossil Fuel Free Index was up +1.6% in July 2023.

Related Party Transactions

Leith Wheeler Investment Counsel Ltd. (the “Manager”) is the manager and portfolio advisor of the Fund and is responsible for the Fund’s day-to-day operations. The Fund pays the Manager a management fee as compensation for managing the investment portfolio of the Fund.

Management Fees

The Manager provides the Fund with investment management services, including fund accounting and unitholder record keeping. In return, the Manager receives a management fee based on the net assets of the Fund, calculated on a daily basis. The annualized management fee for the Series B and Series F units of the Fund are 1.40% and 0.95%, respectively. During the year, the Fund paid the Manager \$3,112 for Series B and \$9,682 for Series F (exclusive of GST/HST) of its net assets as management fees. The Fund does not reimburse the Manager for operating costs incurred in administering the Fund. The Manager paid all operating expenses except brokerage commissions, transaction charges and taxes. In respect of Series A units, the unitholder pays the Manager a negotiated management fee outside the Fund.

We do not, directly or indirectly, pay fees, sales commissions or trailing commissions, nor do we provide any non-monetary benefits to registered dealers for distributions of units of the Fund. If a broker charges you a commission or fee, that is a matter between you and the dealer.

(1) This information is provided as at December 31 of the year shown; unless noted otherwise.

(2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of the daily average net asset value during the period.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

(5) Effective June 27, 2023, Series B has been discontinued as there are no unitholders.

Past Performance

General

The Fund’s performance assumes all distributions made by the Fund in the years shown were reinvested in units of the Fund and is based on net asset value per unit. If you hold the Fund outside a Registered Plan, you will be taxed on these distributions.

The performance information does not take into account sales charges, other charges or taxes that, if applicable, would have reduced returns or performance; but includes management fees and other expenses borne directly by the Fund. Past performance does not necessarily indicate how the Fund may perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund’s historical return, which changes each year and illustrates how the Fund’s performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each year.

* Series A units were created September 27, 2017. Return from inception on September 27, 2017 to December 31, 2017, not annualized.

** Series B and Series F units were created September 27, 2017, however, these units were not offered under Simplified Prospectus until May 25, 2018. Return from May 25, 2018 to December 31, 2018, not annualized.

*** Effective June 27, 2023, Series B has been discontinued as there are no unitholders.
