Management Discussion of Fund Performance

Investment Objective and Strategies

To provide superior long-term investment returns by investing in equity securities trading on the major markets around the world. The Fund will focus on holdings in the EAFE (Europe, Australasia & Far East) markets but may also have some exposure to North American and Emerging Markets. The Fund primarily invests in a broad range of international companies and is not restricted by capitalization or industry sector, although portfolio diversification is a consideration in the selection of securities for the Fund. Under normal circumstances, the Fund will keep its portfolio fully invested, to the greatest extent possible, in equity and equity related securities.

Our strategy employs a value approach to the management of equities. It emphasizes long-term investment and it focuses on the selection of individual securities using a bottom-up, research driven approach. Sector exposure is a residual of this stock selection process. Fund holdings must meet our standards of investment quality, including a history of above average financial performance, a secure financial position, reputable management and a growth opportunity in terms of sales, earnings, and share price.

Risk

The overall risks of investing in the Fund are as described in the Simplified Prospectus. There were no material changes to the Fund during the year that affected the overall level of risk.

Results of Operations

The Fund’s net assets decreased by 13.6% in the first half of 2024 to \$33.0 million from \$38.2 million at the end of 2023. Of this change, \$1.0 million was attributable to positive investment performance and \$6.2 million to net outflows from unitholders.

For the six months ended June 30, 2024, the International Equity Plus Fund Series A increased +2.7% before fees, and Series F increased +2.1% after fees and expenses. The MSCI ACWI ex USA Index increased +9.7% over the same period.

In the first quarter, the Fund underperformed the MSCI ACWI ex USA Index. Relative performance in the Financials sector proved most challenging given the Fund’s lack of exposure to Japanese Financials, which performed well. Stock selection in both the Consumer Discretionary and Health Care sectors further detracted from relative returns. This was offset partially due to an overweight in the Industrial sector which performed well.

The International Equity Plus Fund also underperformed the MSCI ACWI ex USA Index in the second quarter. Challenging stock selection in the Materials, Industrials, Health Care, Consumer Discretionary, and Financials sectors detracted from relative returns, offsetting positive selection within the Consumer Staples, Information Technology, Energy, and Utilities sectors. The underweight to the Health Care and Information Technology sectors and an overweight to Consumer Staples detracted further from relative returns.

Recent Developments

Effective March 31, 2024, the benchmark for the International Equity Plus Fund changed from the MSCI EAFE – Net Index (C\$) to the MSCI ACWI ex USA Index (C\$). The MSCI ACWI ex USA Index returned +3.3% in July 2024.

Related Party Transactions

Leith Wheeler Investment Counsel Ltd. (the “Manager”) is the manager and portfolio advisor of the Fund and is responsible for the Fund’s day-to-day operations. The Fund pays the Manager a management fee as compensation for managing the investment portfolio of the Fund.

As at June 30, 2024, the Leith Wheeler Balanced Fund owned 2,547,418 Series A units of the Fund, a fund under common management. This holding represents approximately 84.8% of this Fund.

Management Fees and Administration Fees

Management fees and administration fees of each series of the Fund are payable to the Manager and calculated at the following annual percentages, before GST/HST, of the daily NAV of each series of the Fund. Administration fees became effective November 1, 2023.

Fee	Series A	Series F
Management Fees	*	0.95 %
Administration Fees	0.02 %	0.10 %

* Series A unitholders pay a negotiated management fee

We do not directly or indirectly pay fees, sales commissions or trailing commissions, nor do we provide any non-monetary benefits to registered dealers for distributions of units of the Fund. If a broker charges you a commission or fee, that is a matter between you and the dealer.

- (1) This information is provided as at December 31 of the year shown; unless noted otherwise.
- (2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of the daily average net asset value during the period.
- (3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.
- (5) Effective October 18, 2023, Series B has been discontinued as there are no unitholders.

Past Performance

General

The Fund’s performance assumes all distributions made by the Fund in the years shown were reinvested in units of the Fund and is based on net asset value per unit. If you hold the Fund outside a Registered Plan, you will be taxed on these distributions.

The performance information does not take into account sales charges, other charges or taxes that, if applicable, would have reduced returns or performance; but includes management fees and other expenses borne directly by the Fund. Past performance does not necessarily indicate how the Fund may perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund’s historical return, which changes each year and illustrates how the Fund’s performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each year.

* Series F units were created on May 25, 2016. Return from May 25, 2016 to December 31, 2016, not annualized.

** Effective October 18, 2023, Series B has been discontinued as there are no unitholders.
