

Leith Wheeler U.S. Equity Fund

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

June 30, 2023

Quiet Money.®

This interim management report of fund performance contains financial highlights, but does not contain either interim or annual financial statements of the investment fund. You can get a copy of the interim or annual financial statements at your request, and at no cost, by calling 1-888-292-1122, by writing to us at 1500 – 400 Burrard Street, Vancouver, BC V6C 3A6 or by visiting our website at www.leithwheeler.com or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

To provide superior long-term investment returns by investing in equity securities trading on the major markets in the United States. The Fund may also invest in convertible securities of American issuers or equivalent equity securities. Under normal circumstances, the Fund will keep its portfolio fully invested, to the greatest extent possible, in equity and equity related securities.

Our strategy employs a value approach to the management of equities. It emphasizes long-term investment and it focuses on the selection of individual securities using a bottom-up, research driven approach. Sector exposure is a residual of this stock selection process. Fund holdings must meet our standards of investment quality, including a history of above average financial performance, a secure financial position, reputable management and a growth opportunity in terms of sales, earnings, and share price.

Risk

The overall risks of investing in the Fund are as described in the Simplified Prospectus. There were no material changes to the Fund during the year that affected the overall level of risk.

Results of Operations

The Fund's net assets decreased by 6.6% in the first half 2023 to \$399.4 million from \$427.4 million at the end of 2022. Of this change, \$6.6 million was attributable to positive investment performance and \$34.6 million to net outflows from unitholders.

In the first half of 2023, the US Equity Fund Series A increased 1.6% before fees, Series B and F increased 1.0% and 1.1% respectively, after fees and expenses. The S&P 500 (C\$) increased 14.3% over the same period.

The Leith Wheeler US Equity Fund seeks to provide superior long-term investment returns by investing in equity securities trading on the major markets in the United States. The Fund primarily invests in a broad range of US companies and is not restricted by capitalization or industry sector, although portfolio diversification is a consideration in the selection of securities for the Fund.

2023 started off on a positive note for markets but volatility returned with two significant events occurring in early March. The first was crypto-focused bank Silvergate Capital announcing that it was shutting down its operations. The second was Silicon Valley Bank ("SVB") coming to market to raise capital after it had been forced to sell a large portion of their available-for-sale securities at a loss. This triggered panic in the US financial system, which put other regional banks under pressure and ultimately led to the demise of SVB.

The second quarter of 2023 ended with most markets around the globe higher than where they started, with the US market propelled higher by the large technology companies that drove performance in the first quarter. It is remarkable that an index as large as the S&P 500 is now dominated by a handful of companies. In fact, Facebook (Meta), Apple, Amazon, Netflix, Google (Alphabet), Microsoft, NVIDIA, and Tesla have accounted for over 80% of the index returns this year. Against this backdrop, our US portfolios have struggled to keep pace with the market.

The Fund's underweight in information technology and stock selection in financials detracted from performance in the first half of 2023. Performance was slightly offset by strong stock selection in industrials.

Recent Developments

In July 2023, the S&P 500 (C\$) returned +2.8%.

Related Party Transactions

Leith Wheeler Investment Counsel Ltd. (the "Manager") is the manager and portfolio advisor of the Fund and is responsible for the Fund's day-to-day operations. The Fund pays the Manager a management fee as compensation for managing the investment portfolio of the Fund.

Management Fees

The Manager provides the Fund with investment management services, including fund accounting and unitholder record keeping. In return, the Manager receives a management fee based on the net assets of the Fund, calculated on a daily basis. The annualized management fee for the Series B and Series F units of the Fund are 1.25% and 0.95%, respectively. During the year, the Fund paid the Manager \$27,825 for Series B and \$7,557 for Series F (exclusive of GST/HST) of its net assets as management fees. The Fund does not reimburse the Manager for operating costs incurred in administering the Fund. The Manager paid all operating expenses except brokerage commissions, transaction charges and taxes. In respect of Series A units, the unitholder pays the Manager a negotiated management fee outside the Fund.

We do not directly or indirectly pay fees, sales commissions or trailing commissions, nor do we provide any non-monetary benefits to registered dealers for distributions of units of the Fund. If a broker charges you a commission or fee, that is a matter between you and the dealer.

Financial Highlights

The Fund's Net Assets Attributable to Holders of Redeemable Units per Unit

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past six months and for the past five years or for the periods since inception. This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements.

Series A	June 30, 2023	2022	2021	2020	2019	2018
Net assets attributable to holders of redeemable units - per unit, beginning of year ⁽¹⁾	\$5.43	\$5.88	\$4.93	\$4.71	\$4.03	\$4.53

Net assets attributable to holders of redeemable units - per unit (\$)	5.33	5.33	5.81	4.88	4.61	3.96

(1) This information is provided as at December 31 of the year shown; unless noted otherwise.

(2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of the daily average net asset value during the period.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Past Performance

General

The Fund's performance assumes all distributions made by the Fund in the years shown were reinvested in units of the Fund and is based on net asset value per unit. If you hold the Fund outside a Registered Plan, you will be taxed on these distributions.

The performance information does not take into account sales charges, other charges or taxes that, if applicable, would have reduced returns or performance; but includes management fees and other expenses borne directly by the Fund. Past performance does not necessarily indicate how the Fund may perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund's historical return, which changes each year and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each year.

* Series F units were created on May 25, 2016. Return from May 25, 2016 to December 31, 2016, not annualized.
