The indicated rates of return (other than for each money market fund) are the historical annual compounded total returns for the period indicated including changes in unit value and reinvestment of all distributions. Benchmarks published in US\$ are converted using the applicable Bloomberg exchange rate. Distribution history should not be used to predict future distributions. The indicated rates of return for each money market fund is an annualized historical yield based on the seven-day period ended as indicated and annualized in the case of effective yield by compounding the seven day return and does not represent an actual one year return. Fund values change frequently. The Funds are not guaranteed or covered by the Canadian Deposit Insurance Corporation or by any other government deposit insurer. There can be no assurances that a money market fund will be able to maintain its net asset value per unit at a constant amount or that the full amount of your investment will be returned to you. Past performance may not be repeated.

Portfolio weightings are based on percentage of total market value, not percentage of total Net Asset Value (NAV) and may differ from the fund's regulatory documents. This document has been compiled by LWIC from sources believed to be reliable, but no representations or warranty, express or implied, are made by LWIC as to its accuracy, completeness or correctness.
