FUND OBJECTIVE

To provide investors with a relatively stable source of tax efficient monthly income, with some potential for long-term growth through capital appreciation and growth in dividends. The Fund derives its income from its investments primarily in fixed income securities, preferred shares, and dividend-paying equities.

INVESTMENT STYLE

The Fund invests in a mix of assets to provide a tax-efficient source of income. The asset mix includes fixed income securities (which are lower risk), preferred shares, and dividend-paying equities, which provide opportunities for dividends and capital gains. The allocation of investments in the Fund is determined by the Manager to optimize the income and balance the risk of the portfolio.

We purchase preferred shares and dividend-paying equities with the intention of holding them for the long term. We focus on determining the inherent value of a company's business rather than attempting to predict short-term fluctuations in its share price. In evaluating a company's inherent value, we look at factors such as management, competitive position, growth prospects, cash flow and dividends.

The fund may invest in bonds, debentures, mortgage loans, mortgage backed securities, medium term notes, asset-backed securities, fixed income securities issued by both Canadian and international corporations. Up to 20% of the assets of the Fund may be invested in foreign securities.

WHO IS THIS FUND FOR?

- You want a relatively stable source of monthly income
- You want some potential for growth in capital
- You are comfortable with low to medium investment risk

*** On March 31, 2021, the Fund formally adopted an investment performance benchmark you can use to assess the relative performance of your investments versus a blend of published indices. We have chosen a blended benchmark that has similar risk and return characteristics and asset classes to the Fund. However, the characteristics of the benchmark will not match that of the Fund due to our active management of the Fund and because the Fund does not use a fixed ratio identical to the benchmark. The benchmark is being presented retroactively to help you better assess the Fund's past performance. The blended benchmark is 32.5% FTSE Canada Short Term Corporate Bond Index, 32.5% FTSE Canada Mid Term Corporate Bond Index and 35% S&P/TSX Composite Dividend Index.

Leith Wheeler Investment Counsel Ltd. ("LWIC") is the manager and investment advisor for the Leith Wheeler Mutual Funds (the "Funds"). The Funds Series F is offered under Prospectus. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the Fund Facts and Prospectus before investing.

Performance returns for the Leith Wheeler Funds and benchmarks are calculated by Leith Wheeler Investment Counsel Ltd. The indicated rates of return (other than for each money market fund) are the historical annual compounded total returns for the period indicated including changes in unit value and reinvestment of all distributions. Benchmarks published in US\$ are converted using the applicable Bloomberg exchange rate. Distribution history should not be used to predict future distributions. The indicated rates of return for each money market fund are annualized historical yields based on the seven-day period ended as indicated and annualized in the case of effective yield by compounding the seven day return and does not represent an actual one year return. Fund values change frequently. The Funds are not guaranteed or covered by the Canadian Deposit Insurance Corporation or by any other government deposit insurer. There can be no assurances that a money market fund will be able to maintain its net asset value per unit at a constant amount or that the full amount of your investment will be returned to you. Past performance may not be repeated.

Portfolio weightings are based on percentage of total market value, not percentage of total Net Asset Value (NAV) and may differ from the fund's regulatory documents. This document has been compiled by LWIC from sources believed to be reliable, but no representations or warranty, expressed or implied, are made by LWIC as to its accuracy, completeness or correctness. Due to rounding, numbers presented may not add precisely to the totals provided and percentages may not reflect the absolute figures.
